About

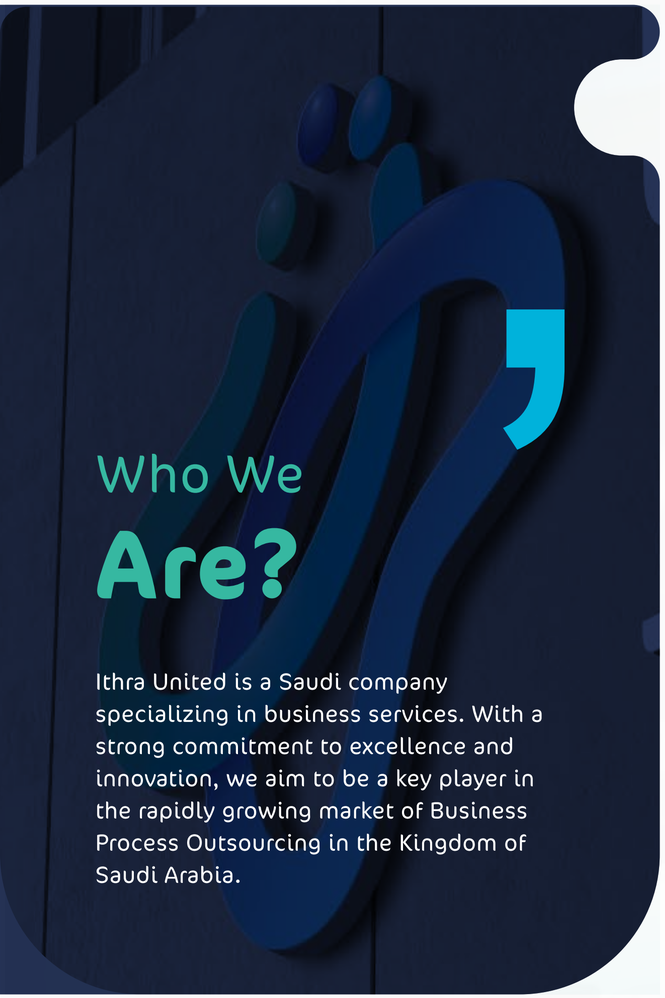

# Ithra United

**Ithra United for Business Services** is a technology and business services company with established experience in customer experience, contact center operations, managed services, digital transformation and systems integration.

The company works with government and enterprise clients on programs that combine technology, operations and service delivery. Its experience covers the design, implementation and operation of contact centers and customer service environments, CRM and digital engagement platforms, managed operations, business applications, analytics, integration and supporting technology platforms.

ITHRA United maintains established corporate and technical credentials relevant to the proposed program, including valid commercial registration, Platinum Technical Classification in Information Technology issued by the Digital Government Authority, and a portfolio of nine ISO certifications covering applicable management and operational disciplines.

Ithra United Business Services

## Who We Are?

Ithra United is a Saudi company specializing in business services. With a strong commitment to excellence and innovation, we aim to be a key player in the rapidly growing market of Business Process Outsourcing in the Kingdom of Saudi Arabia.

## Our Mission

At ITHRA United Business Services, our mission is to deliver top-tier, high-quality business solutions that span a diverse spectrum of needs. We are dedicated to addressing contemporary business challenges with fresh and innovative solutions, tailored to meet the ever-evolving demands of the market. Established as a response to the growing need for specialized business process outsourcing (BPO) services, we see ourselves as the pivotal point where others conclude. We excel in all facets of delivering our services, including modern operational facilities, cutting-edge technological infrastructure and systems, and adherence to global standards within our service domains. Our ultimate goal is to empower our clients to embark on their journeys beyond where others have ventured.

## Our Vision

ITHRA United Business Services aspires to lead the field in offering outsourcing and customer relationship management solutions within the Kingdom of Saudi Arabia. We envision building robust and sustainable relationships with our clients, providing high-level customer experience solutions that consistently exceed their expectations. Our ambition extends to becoming a benchmark for the application of cutting-edge technology in the realm of business. We aim to foster a work environment that nurtures the growth and development of our employees, positioning them as the driving force behind our success.

## Our Values

At ITHRA United Business Services, our values serve as the cornerstone of our operations. They guide every decision and action we take, ensuring we uphold the highest standards of integrity, excellence, and client satisfaction.

## Our Philosophy

Our philosophy at ITHRA United Business Services revolves around our unwavering commitment to providing exceptional business solutions while maintaining the highest ethical standards. We believe in the transformative power of outsourcing and how it can empower businesses to excel in their core functions. Our philosophy is underpinned by a dedication to continuous improvement, innovation, and responsible business practices.

By offering a diverse range of specialized services, we enable companies to focus on their core operations while entrusting us with the intricacies of other critical business processes. We firmly believe in fostering a culture of integrity, transparency, and respect in all our interactions, whether with clients, employees, or partners. Our philosophy extends to our responsibility to society and the environment, as we aim to make a positive impact through socially responsible practices.

# What Sets Us Apart

**Ithra United for Business Services is your trusted partner in navigating the ever-evolving landscape of business solutions. We bring expertise, innovation, and an unwavering commitment to excellence in every project. Your success is our priority, and we are eager to explore collaborative opportunities that align seamlessly with your mission and goals.**

**At Ithra United, we understand that choosing the right partner is a critical decision. Here are compelling reasons why partnering with us is the right choice:**

## Unmatched Expertise

With a team boasting over 15 years of collective experience, including seasoned management and operational experts, ITHRA United brings a wealth of knowledge to the table. Our team has been at the helm of numerous entities in our field, crafting a legacy of excellence.

## Commitment to Excellence

ITHRA United is dedicated to delivering services of the highest quality. We're not satisfied with merely meeting expectations; our goal is to surpass them consistently. Our commitment to excellence extends across every aspect of our services.

## Global Reach

While our primary focus is the local Saudi Arabian market, we have our sights set on expanding across the Gulf and the wider Middle East. We see ample opportunities for global market growth and aim to be at the forefront.

## Pioneering Innovation

ITHRA United stands as a launching point beyond others, comprehensively addressing every facet of our service execution. This includes state-of-the-art operational facilities, technological infrastructures, and adherence to international standards within our service domains. Our commitment to innovation is woven into the fabric of our operations.

## Flexibility and Adaptability

We recognize that each client's needs are unique. That's why we take pride in our adaptability and flexibility, tailoring our services to align perfectly with your business goals and requirements. This ensures a custom-fit solution for your specific challenges.

## Strategic Technological Integration

Our strategic approach involves seamlessly integrating modern technologies and their applications into our business scope and the services we provide. We've forged partnerships and collaborations with global research and development entities, specializing in cutting-edge artificial intelligence (AI). This enhances our ability to stand out in our domain.

# International Certifications and Recognitions

Ithra places great importance on obtaining international certifications and accreditations, as they reflect its commitment to the highest standards of quality and efficiency. This approach enhances the credibility of its services and reinforces its continuous pursuit of excellence and development in line with global best practices.

**Operation and Maintenance Services (O&M)**

Ensure the uninterrupted functionality of critical

**IT and Communication Services Management**

Optimize your IT infrastructure to meet evolving business needs

**Field Operations and Inspection Services**

Maintain operational excellence and compliance

## Digital Transformation & Data Centers

Advisory, implementation and capability under one accountable engagement model.

When strategy, implementation and training are divided across providers, handover risk increases between workstreams.

# One Delivery Model

### Consulting & Advisory

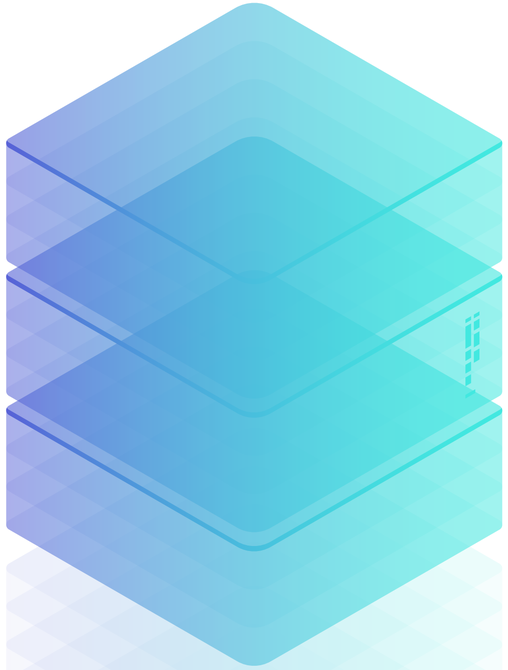

### Intelligent Operations & Technology

### Training & Workforce Enablement

**Designed around the boundaries between disciplines—where ownership and value can be lost.**

# Technology Is Not the Whole Answer.. Alignment Is

A recurring pattern in complex transformation environments.

- **Governance not embedded in daily operation**
- **Programmes stalling between strategy and execution**
- **Platforms introduced before operating readiness**
- **Teams trained without sufficient authority or operating support**

**The issue is rarely technology alone — it is the alignment and sequence surrounding it.**

# The Transformation Lifecycle

Programmes often lose momentum between governance and implementation. Ithra United is structured around that transition.

Governance connects every transition.

01

## Diagnose

Assess the current state, constraints, risks and priority outcomes.

02

## Govern

Define ownership, decision rights, controls, measures and accountability.

03

## Architect

Design the target operating model, processes, requirements and roadmap.

04

## Implement

Deliver organisational and process change while deploying supporting technologies.

05

## Enable

Prepare leaders, administrators and users to operate the new environment.

06

## Sustain

Measure adoption, maturity and performance while supporting continual improvement.

# Customer Experience Outsourcing Solutions & Contact Centers

Our Contact Centre Outsourcing solutions redefine customer service and relationship management. With an unwavering commitment to quality, cost-efficiency, and customer satisfaction

## Contact Centre Infrastructure Setup

We handle provisioning, supply, and installation

## Contact Centre and Customer Experience (CX) Consultation

Benefit from expert insights to enhance customer experiences

## Fully Managed In-house & Outsourced Contact Centre Services

Choose the model that aligns with your business strategy

## World-class Contact Centre and Command Centre Development

Elevate your operational capabilities

## Staffing, Training & Development Management

Ensure a skilled and motivated workforce

## Software, Applications & CRM for Contact Centers

Leverage cutting-edge tools to optimize operations

## AI & RPA Solutions Development and Implementation

Stay at the forefront of technological innovation

## Omni-Channel Call Centers

Our integrated omni-channel contact centers provide a seamless customer service experience across multiple channels, including calls, emails, video calls, mobile apps, webchat, social media platforms, client portals, and advanced chatbots & voice bots

## Incorporating New Technologies into Contact Centers

Harness the power of AI and machine learning to enhance customer interactions, automate routine tasks, analyze data for informed decision-making, and optimize efficiency

# Design & Development of AI Solutions

Integrating artificial intelligence into contact centers is not just a technical option — it is a strategic necessity to enhance service quality, improve efficiency, and deliver an exceptional customer experience aligned with modern market expectations.

## Customer Interaction

Redefining the customer experience through smart tools that deliver fast, accurate, and personalized services.

- AI Agent
- Chatbot
- Self Service
- Voice Bot

## Contact Center Performance

AI not only serves the customer — it also makes a significant impact on internal operational efficiency.

- Quality Monitoring
- Form Autofill & Smart Suggestions
- Automation
- Agent Virtual Assistant
- AI Knowledge Management

## Analytics & Prediction

The true power of AI lies in its ability to learn from data and transform it into actionable insights.

- Sentiment Analysis & Voice Listening
- Call Analysis
- Real-time Dashboarding
- Predictive Analytics

## Advancing and Improving Automated Communication Processes

Integrating artificial intelligence into contact centers is not just a technical option — it is a strategic necessity to enhance service quality, improve efficiency, and deliver an exceptional customer experience aligned with modern market expectations.

### Virtual Offices

An interactive environment that supports customers through multiple channels, providing an experience close to human interaction.

### AI Agent

An integrated virtual agent capable of managing complex conversations and analyzing customer needs more effectively.

### Voice Bot

Provides automated service through voice calls, reducing waiting times and enhancing operational efficiency.

### Chatbot

Enables instant interaction with customers through text, answering frequently asked questions and providing essential support without human intervention.

## Key Benefits

- Significantly improves response times
- Reduces operating costs and increases resource efficiency
- Enables 24/7 service delivery
- Provides an innovative, interactive experience that meets modern customer expectations

## Advancing and Improving Real-Time Quality Management

Quality is no longer merely an indicator; it directly reflects customer confidence and the sustainability of successful partnerships. From this perspective, Ithra United provides innovative quality management and monitoring tools that enhance operational efficiency and improve the customer experience.

### Customer Journey Mapping

A tool for analyzing the customer experience at every interaction point and improving the entire journey.

### RPA & Automation

Automates routine tasks and transforms them into reliable processes, saving time and reducing errors.

### AI Virtual Assistant

Provides immediate support to employees and customers while reducing human errors.

### AI Knowledge Management

Organizes and leverages institutional knowledge to facilitate employees' access to accurate and reliable information.

### Automated Quality Management

Provides accurate and intelligent monitoring of interactions and services.

## Key Benefits

- Improves the accuracy of quality monitoring
- Accelerates operations and reduces costs
- Enhances customer satisfaction through real-time experience monitoring
- Enables data-driven decision-making based on reliable information

# Advancing and Enhancing Intelligent Analytics

Intelligent analytics is the key to deeply understanding customers and making sound strategic decisions. Ithra United provides advanced analytics solutions powered by artificial intelligence, transforming data into valuable insights that support growth and sustainability.

### Call/Interaction Reasons Analysis

Identifies the underlying motives behind customer interactions and engagements.

### Sentiment Analysis

Recognizes customer emotions and identifies positive and negative sentiments to better understand their true experience.

### Voice & Digital Interactions Analysis

Provides a comprehensive view of customer interactions across various digital and voice channels, enabling a deeper understanding of customer behavior.

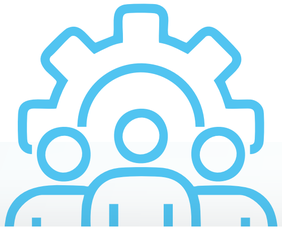

### CX Analysis

Measures and evaluates the customer experience comprehensively to identify opportunities for improvement.

## Key Benefits

- Provides accurate insights to support decision-making
- Enhances the customer experience through a deeper understanding of customer needs
- Enables proactive identification of issues and opportunities
- Improves operational performance through in-depth analytical data

# Outsourcing of Manpower

## Access Skilled Talents

## Enhance Performance

ITHRA United possesses the capability to provide both governmental and private entities with a pool of qualified manpower and skilled talents, ranging from entry-level positions to specialized professionals. Our Manpower Provision Services span across various industries, including Banking, IT, Communications, Administration, HR, Sales, Marketing, Front Offices, Customer Service, and more.

# Public-Private Partnerships (PPP)

As part of Saudi Arabia's commitment to advancing Public-Private Partnerships (PPPs), ITHRA United stands ready as a private partner to governmental entities.

At ITHRA United, our commitment to excellence extends to every facet of our services. We believe in the power of innovation, collaboration, and responsible business practices. Whether you seek to optimize processes, enhance customer experiences, access skilled talent, or explore partnership opportunities, our team is here to guide you towards success.
Discover how ITHRA United Business Services can empower your organization to thrive in the dynamic Saudi Arabian market.

### Build / Operate / Transfer (BOT) or Build / Transfer / Operate (BTO)

Comprehensive project management, from inception to realization

### Build / Own / perate (BOO)

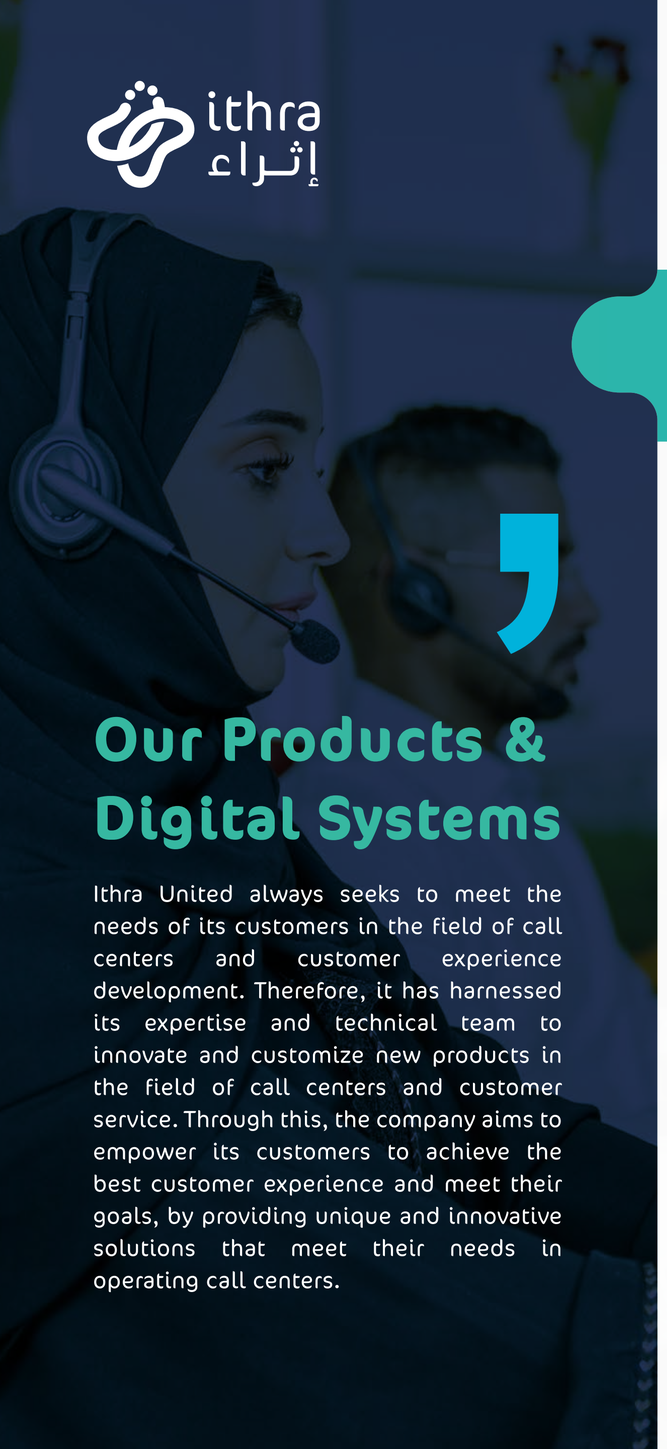

Ownership and operational services for sustainable growth

### Contracting Services (Outsourcing)

Strategic outsourcing solutions, including Operations, Maintenance, and Management.

### Joint Ventures

Collaborative ventures to drive success in various sectors and initiatives

# Our Products & Digital Systems

Ithra United always seeks to meet the needs of its customers in the field of call centers and customer experience development. Therefore, it has harnessed its expertise and technical team to innovate and customize new products in the field of call centers and customer service. Through this, the company aims to empower its customers to achieve the best customer experience and meet their goals, by providing unique and innovative solutions that meet their needs in operating call centers.

**At Ithra United Business Services, we offer a wide range of solutions specifically tailored to meet the needs of organizations in both the public and private sectors. Our commitment to excellence, innovation, and unwavering focus on client success defines our approach.**

## UniView
Advanced Bi Dashboard

Bring together all workplace applications in a comprehensive display in one place for easy management

## UniPlat
Unified Operational Platform

Manage your entire interaction cycle, track customer communications, communicate with your customers and employees, and much more using an easy-to-use unified core system

## UniAssist
Field Management System

Field Service Management System enabling us to provide outstanding services anywhere for services that require field work in multiple locations

## ReachMax
Campaign Management

Communication Campaign Management System, considered one of the best tools for its ability to facilitate and organize campaign management operations

# UniPlat

Unified Operational Platform

Manage your entire interaction journey, track customer communications, and engage with your clients and teams—all through a unified, user-friendly platform.

The system offers a wide range of services for all departments under service and contact center operations, providing a comprehensive digital platform that integrates multiple key functions such as:

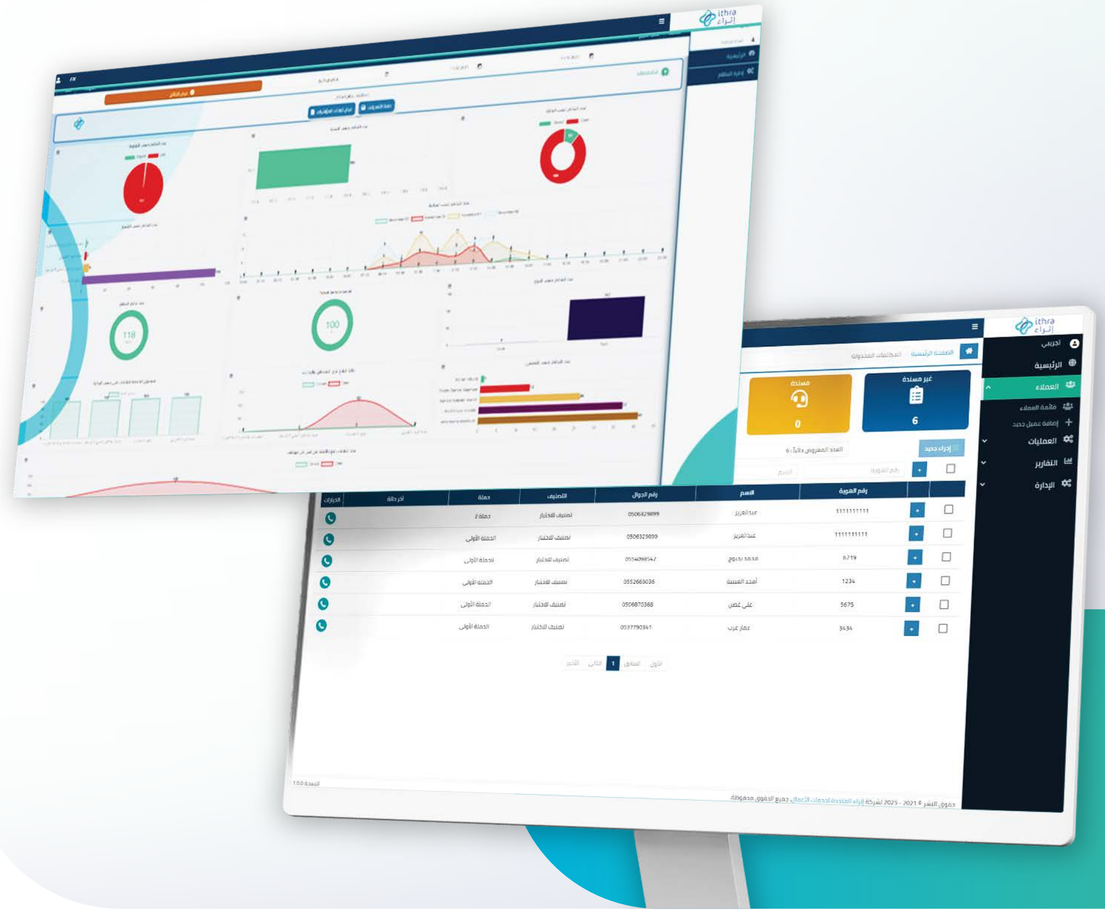

- Quality Management
- Test Management
- Customer Relationship Management (CRM)
- Survey Management
- Knowledge Base Management
- File Management
- Employee Voice Management
- Project Management
- Quick Search
- Advertising & Notification Management

# UniView

Advanced Bi Dashboard

A unified dashboard brings together all workplace applications in one comprehensive view for easy management. You can customize your dashboard as you see fit and stay constantly informed about your activities covering key performance indicators of your operations, customer satisfaction, and interactions.

### Integrated Dashboard

No need to navigate between tabs or systems to create and view reports

### Give it a personal touch

Customize the layout of your dashboards, rearrange, add or remove tools, and create custom charts and widgets from existing ones

### Advanced Control Panel

UniView dashboard syncs data in real-time and facilitates collaboration

# ReachMax

Campaign Management

Reach Max Pro is a campaign management system considered one of the best tools for its ability to facilitate and organize campaign management processes, integrate with communication systems, and enhance a comprehensive view of all customer calls.

## Integration with Communication Systems

Reach Max Pro can seamlessly and effectively interact with communication systems. This integration allows the automatic opening of beneficiary data windows when a call reaches the employee, providing a comprehensive view of the customer's information and journey, helping in delivering better and more effective service.

## Campaign Management

It enables users to create campaigns and define their details accurately and specifically, such as the number of allowed contact attempts, the time interval between each attempt, scheduling campaign execution times, and easily uploading targeted beneficiaries to start direct communication with them.

## Dynamic Path Features

It offers the ability to build dynamic paths for campaigns, including questions and answers for each campaign separately, and customize system behaviors that can be triggered under specific conditions.

## Integration with Dashboards

Reach Max Pro features easy integration with dashboards by providing an API that can be used to link the system with any required dashboard. This allows access to detailed reports and comprehensive charts to analyze performance and make strategic decisions based on data.

## Beneficiary Management

The system provides a comprehensive view of customer files, making it easier for employees to track all calls and interactions related to them.

## Reports

Reach Max Pro offers detailed reports and statistics on campaign performance, customer responses, and path results.

# UniAssist

## Field Management System

Service management system that enables us to provide distinguished services in any location for services that require work in multiple field locations.
Uni-Assist enables you to manage work and tasks from anywhere, on any device, and was designed with mobile devices in mind. No need to install any software and no need to worry about hardware compatibility. While providing features for tracking tasks, work time, and completion, Uni-Assist forms a unified platform for planning, scheduling, reorganizing work, and monitoring the performance of business teams.
In addition to the features of issuing electronic reports to work teams in an integrated manner with other company applications and interactive monitoring panels.

### Real-time and customized reports

Ability to display information, statistics, and instant and periodic reports (dedicated to a specific period)

### Assigning and scheduling field tasks

Ease of planning and scheduling field tasks and data entry

### Flexible & responsive interfaces

Quick access from anywhere, flexible interfaces, and support for various desktop and tablet devices.

# VOCAMIND

## AI Analysis Platform

AI Powered

It is an intelligent system for analyzing calls and interactions, developed by Ithra United as an integral part of the contact center operating environment.

**The system enables:**

- Converting voice calls into searchable and analyzable text
- Assessing call quality and employee compliance with procedures
- Analyzing customer sentiment and emotions during interactions
- Measuring vocal and behavioral indicators
- Classifying calls and identifying reasons for contact
- Providing dashboards and business performance indicators
- Supporting operations, quality, supervisory, and training teams
- Managing teams and beneficiaries through role-based access controls

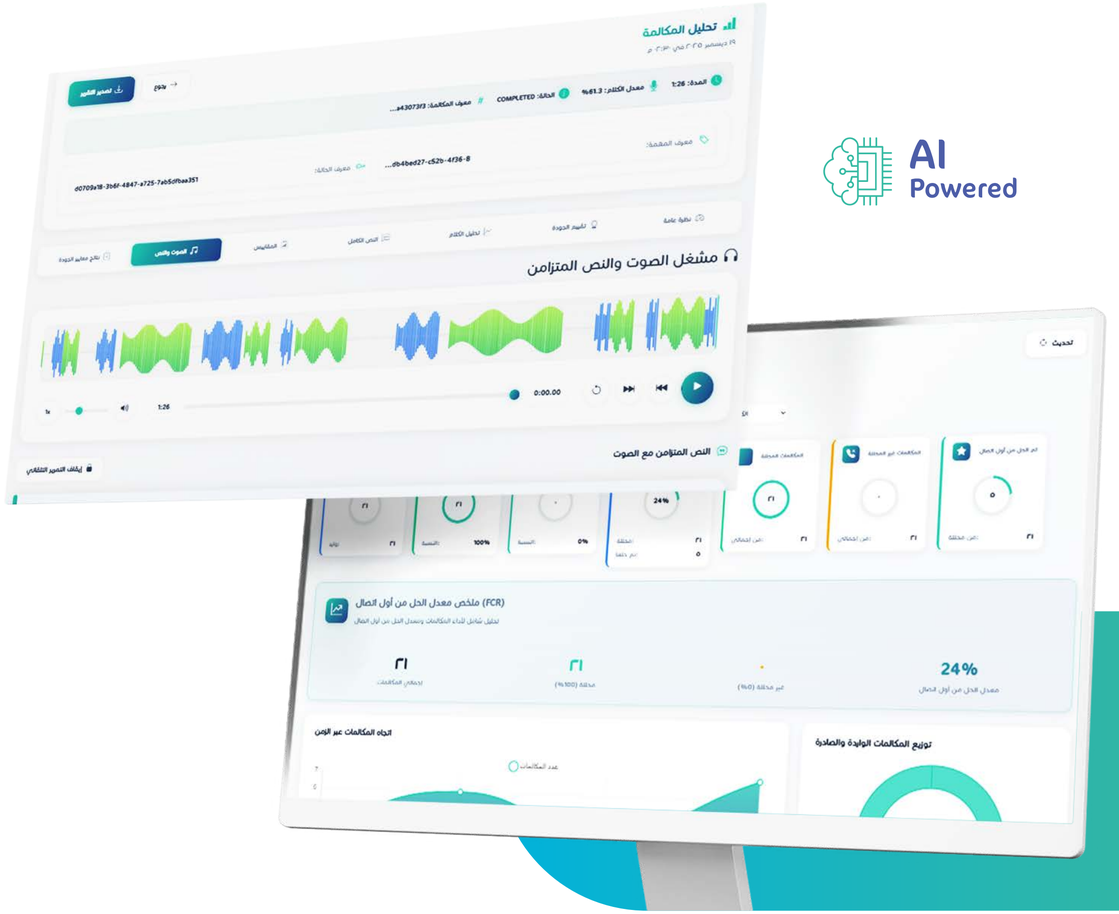

# VOCAMIND

AI Analysis Platform

Contact centers generate massive volumes of calls, interactions, and data every day. However, a significant portion remains underutilized due to reliance on manual reviews and limited sampling.

By applying artificial intelligence through **VocaMind**, calls are transformed from stored recordings into an integrated source of operational insights, enabling customer experience teams to:

- **Identify challenges early—beforethey escalate**
- **Continuously measure service quality**
- **Understand the voice of the customer more deeply**
- **Make faster and more accurate decisions**
- **Improve employee performance using actionable data**

# Our methodology for developing customer experience programs

Ithra United's services revolve around understanding customer aspirations and responding to their feedback, which enhances satisfaction and loyalty levels and contributes to achieving positive and sustainable results. This approach also enables the effective identification and resolution of weaknesses in the customer experience, directly reflecting in improved overall performance and an enhanced company reputation in the market.

What Sets Us Apart

# Modern Designs for Operational Facilities

Ithra United has established operational centers for contact center projects built to high technical standards. These facilities are equipped with the latest office and tech infrastructure and feature contemporary designs with thoughtfully planned natural lighting. All essential amenities have also been provided to create a motivating and attractive work environment for employees.
